

Regional consultations with experts in SRHR in humanitarian crises *(updated 15 December 2024)*

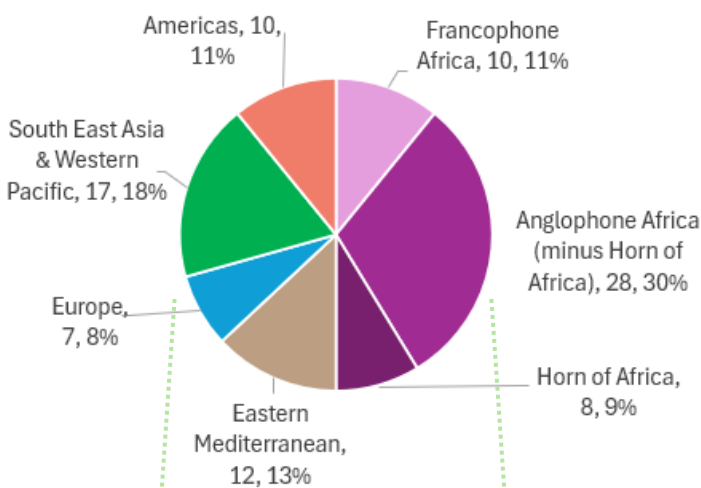

11 regional meetings held in total

Purpose of regional groups:

For CSOs, CBOs, practitioners, researchers, implementors, service providers & policy makers with experience in SRHR in humanitarian settings to advise what evidence is needed to improve SRHR outcomes in crises settings. This will build on a list of research questions that will be shared with the experts before the meetings.

Objective of consultation meetings:

To identify top priorities for SRHR research questions in crises settings in each region.

350

= total number of individual inputs shared during the consultations (either during meetings or via email post hoc) that need to be reviewed, recrafted & consolidated

■ Number of people who attended meetings and/or contributed to share research questions as a share of all those who joined the register
